How? By taking Dr. Pierce's Favorite Prescripton, the world's greatest remedy for all kinds of diseases peculiar to women. It brings back tone and vigor to the system weakened by those distressing complaints known only to women, which make life such a burden. It restores relaxed organs to a normal condition. Long Anticipated Murder Trial Begun.

LIZZ E BORDEN.

Chief Justice Mason Addresses the Jury as a Body.

New Bedford, Mass., June 5. The long anticipated Borden murder trial has begun. At an early hour this morning, every available shady spot on County street, near the court house, was preempted by people awaiting the sound of the court house bell, which would mark the opening of the great trial. Deputy shertifa guarded the entrance at the front, and New Redford policemen the rear. Talismen began to file into their piaces at 10 and at 11 ail had arrived.

18 and at 11 all had arrived.

At precisely 10.58 Lizzle Borden, the prisoner, came slowly into the room preceded by Deputy Sheriff Kirby, and was shown to her seat in the dock. She kept shown to her seat in the dock. She kept her gaze lowered upon the floor, and was very becomingly attired in a dress of black brocaded stuff and wore a pretty

was occupied by jurors and newspaper men, no outsiders having heen allowed as yet to enter. Within the box enclosure were a few prominent men of the county, who had been accorded seats by courtesy. The court came in at precisely 11.27. The deputy sheriff made the usual proclamation to the tailsmen, after which the clerk called them in alphabetical order. Seven minutes were thus taken up, after which a brief prayer was offered, Miss Borden standing.

The District Attorney moved for the impanelling of a jury. Chief' Justice Mason then addressed the jurors as a body, stating that he should he obliged to put certain questions to the jurors as they came before the court, relative to forming opinious, their bias or prejudice, and he read a section of au opinion from the Chief Justice of the court of last resort, bearing upon the matter of opinious, and he cautioned them that all of their answers must be given under oath. If any juror was so mentally constituted that he could not believe any person would commit a crime punishable with death, then that person would not do as a juror. The clork was then directed to proceed with the impanelling of the jury. Miss Borden was asked to stand up and told of her right to challenge. Salen, Mass., June 5. Isave... Potter and John M. A Difference of Opinion. An editorial in the Boston Journal con-

the present Secretary of the Navy: Secretary Hilary A. Herbert has given frequent evidence that he belongs distinctively to the patriotic and progressive wing of the Democracy. He has announced his debrgmination to enforce his predecessor's ideas of civil service reform.

In another column of the same edition of the Journal, "Webb," the reliable Washington correspondent of the paper, has something to say about this " progressive "Secretary in the following des-

gressive Secretary in the inflowing desarteh:

The ex-Union sailors of the country will be surprised to learn that the war records of the Nawy Department have been placed wholy in charge of ex-Confederates. This has been accomplished by the ex-Confederate who is Secretary of the Navy by the removal of a Republican clerk in the office of the naval war records and the appointment in his place of an ex-Confederate.

It has been the policy of the Government under Republican Administrations to have the veterans of both armies placed in charge of both the army and navy war records. The purpose of this was that there might not be unavoidable criticism that the war records were wholly compiled by the representatives of the Union Army.

Secretary Herbert has deemed it expedient not to follow this custom. On the contrary, by the arbitrary removal of a Republican, simply because he was a Republican, he has placed the naval war records entirely in charge of ex-Confederates.

Here we have a marked difference of opinion as to the place the Secretary of the Navy will occupy in history. The trouble seems to be that the editor of the Americal bases his remarks on the high sounding promises of civil service reform, which the Secretary of the Navy, in common with other members of the Administration, has put forth, while the Washington desputch is founded on netual fact. This appears to be a case where the motto of Davy Crockett might be studied with profit by the editor of the Journal, namely, "Be sure you are right and then

Democratic Restoration of Royal-

The Brooklyn Standard-Union says: Mr. Charles Nordhoff's letter in 1 York Herald this morning makes clear the policy of the Administration—that is to say, the President-in the Sandwich Is\_ lands. Briefly stated, it is the re-establishment of the monarchy under Queen Lillinokalani. There is a sort of tarbaric orientalism about her copper-colored Majesty that appeals to the Democratic copperheaded heart. Mr. Blount seems have regarded himself as a kind of captain-general of the islands, and has exercised authority in excess of that of a Territorial Governor; and yet, if the islands are not to be annexed, he had no business all poppycock. We all knew just as much about Hawaii before Blount started as the President will find out when he returns. The actual dispensation of information

is by Mr. Charles Nordhoff, who has red a large stream upon the country. He has written up anti-annexation for all it is worth. In his latest letter be says:

"It requires some courage here nowadays for either a native or a white man
to openly express opposition to unnexajou. I know personally at least a dozen
men, mostly white or half castes, who
have in confidence told me they were compelled by their employer to sign the annexation roll under threat of loss of employment."

This may terrify Nordhoff, but we are glad to hear it. Again:

"Now that Mr. Speckles has come out against annexation openly and squarely, there may be presently a little more liberty, but a a worse and more unscrupulous tyranny of opinion I have never seen anywhere."

Well, we think the people of the United States want those islands, and want to have them if they can be obtained on reasonable terms. There are no objections that are not mere frumpery. Cleveland's Administration felt there was a necessity for being in opposition to Harrison, espe-

Mr. Nordhoff comes out at last for the Queen, says she has been bitterly reviled,

and—
"she may yet play an important part in
the final settlement of affairs here, and
her character is, therefore, of general interest, perhaps importance. For this reason I have taken some trouble to ascertain how she stood as a private person
and as Queen, up to the time of, say, October last, when for annexation purposes,
it became expedient to revile and accuse
her."

Well, she was not exceptionally awful, and the annexationists allowed their wives and daughters to be on good social terms with ier. They permitted their families to enter into royal society; therefore, the Queen must be reputable; therethere is here the old regular constitution
and the legit mate ruler, the Queen, with
back of her the very great majority of
roters, and tals Queen and independwant to maintain their flag and independunder the maintain their flag and independunder the Queen and independto the Queen and the Quee

wires at San Francisco, and we have them at once in the Heroid. He unques ionably is in full sympathy with Blount, Oresham and Cleveland, and what he says is the pursued. We notice MARSTON & GORHAM'S that some honorable(?) party has caused us to tion—that they must deal with the Queen and her voters, "unless the Provisional Government should make itself a perma

nent Government," and then comes this warning, not to say threat, addressed to foreigners—Americans and Europeans:

The fol- Constitution. Now, the Constitution that

stop the mouths of grumblers who say,
"the war has been over for twenty-eight years." "The Indian wars" of the Georgia widows have been over so long as to be forgotten.

Here is a choice extract from the Durhum Hobe, a red hot Cleveland organ in North Carolina. It is the same paper that vigorously applauds Cleveland's proposed of the Persion Department;
"In the Southland to-day there are

Exactly! Here one snifts the coming conflict, which the policy of President Cleveland has made possible, and which it was a wonder was not precipitated by pulling down the Stars and Strines and removing the marines. Is there; perhaps, to be almustacre of the Evropeans by the Chinese and Japs and natives? there, at any rate, to be bloodshed? The islands were substantially and peaceably annexed to the United States when Cleveland meddled and mudifed, and sent Blount to muddle and meddle.

Mr. Nordhoff, after much warning, says: "I believe that after a while the Queen will have her turn." Oh, yes; with the aid of the Administration, the old throne tains the following statement concerning is to be set up, and the Queen is to be upon it; and Mr. Nordhoff has been good enough to write out a fair character for her. The int mation is, that if the Asiaties and Sandwich Islanders are not to be allowed to have their oriental way and their copper-colored Queen, there will be in this city, 3 ne 5, by Geo. W. Royall, Eaq., Mr. Abonzo C. 1 nuglity it Mrs. Vesta & Winship, but of this city odshed. Very likely. And the Cleveland Administration, with its narrow and malignant neglect, and gross abundonment of glorious opportunity, will be directly responsible for the shedding of blood.

He assumed that the commissioner would sind against him, but stated that the Attorney General was so in doubt of securing convictions that he instructed the officials not to press for convictions under the Geary law. Beside that, the government has no money to deport the Chinamen, of whom there are 1,000 in this city. He declared the punishment cruel and amusual, and thought the country should be saved from the shame of such convictions.
